Identifying Knowledge Divergence by Vocabulary Monitoring in Software Projects

How much hoarded words are in a project?

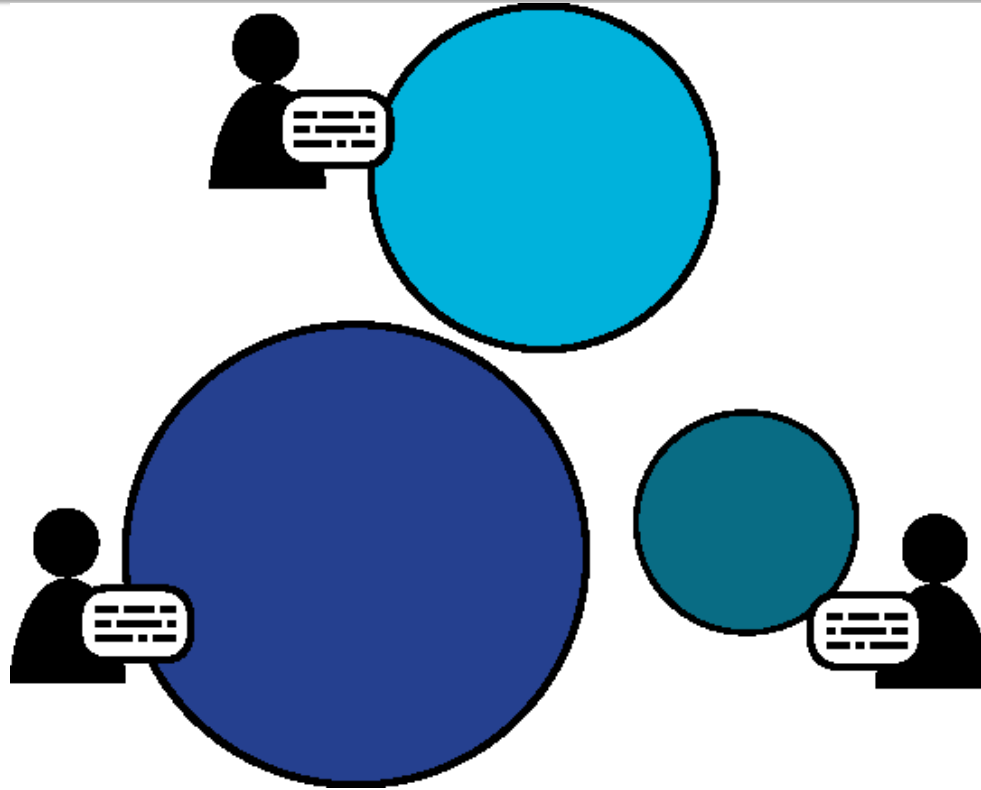

How much hoarded words are in a project?

How much hoarded words are in a project?

Over **40%** of the vocabulary was used only by a single developer.

How does the vocabulary of developers differ?

How does the vocabulary of developers differ?

[A developer used nearly **90%** of the
vocabulary...
... all others were below **40%**.]
